I'm glad Eleanor spoke more to the audience than in previous concerts, but I think the audience would like to hear about the song, or composer, before hearing the song, not afterwards.

A few more upbeat - better known songs would be good, especially for new audiences. Or comments before (not after) most songs on why selected or about song or composer.

Spring concert was set among too many local events, occasions, seemed unfocused

More media coverage would boost ticket sales...currently a bit of pressure on singers to sell/buy tickets.

Members

- I got feedback from two individuals that ticket price is \$5 too high. Also, we discount at the end. Why not just set the price point at the lower level to begin with.
- I wonder if we should have a smaller venue for the spring concert...
- The program was one of the most challenging and beautiful I have ever performed. Bravo!
- Couldn't figure out how "Wicked" was relevant to the other selections. Seemed out of place. Would have preferred more spiritual rather than religious selections.

Members

- I thought it went well. I enjoyed the entire performance and happy we had more audience than we originally thought would come. The date conflicted with my family's plans and two neighbor couples who attended in past so I was disappointed they couldn't come. I'm not sure how "Wicked" fit in with the other songs, disappointed two other songs dropped that would have been better sung to match the spiritual theme. Size and quality of singers and musicians just right ! Overall best performance !
- The selection of music could have been more joyful. So many of the songs referred to death which made it somewhat depressing.

Members

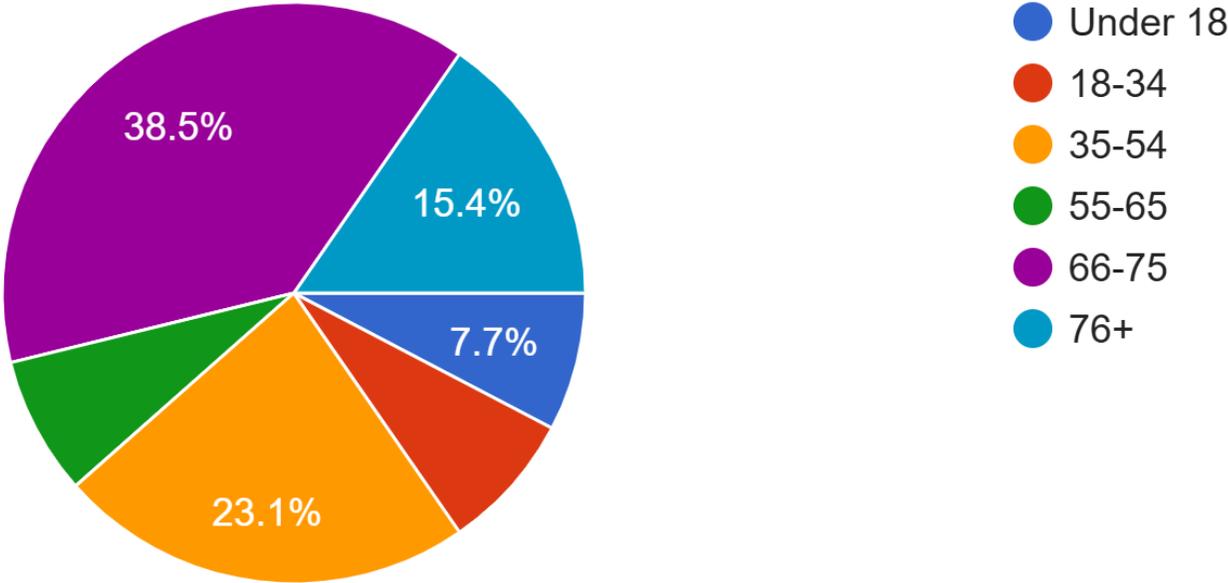

- Unless the repertoire is cohesive and solid, maybe a shorter program but more digestible music would help sell the concert better.
- 'Loved music at rehearsals. Too sick for concert. ('Was a bad dream...)
- I LOVE our Chorale- and as a Music Major, as well as the daughter of 2 former Music Majors- Music is my World!! I grew up singing in church choir with my whole family and others, directed by my Dad- and I took Music Appreciation at Central Michigan University from my Dad, as well. He also was the President of the Michigan School Vocal Assn.- and my Mom taught piano - back in the day. Great Musical Memories for sure!

Members

- Happy to be here.
- I love it all!
- The family loved making fun of me while texting back and forth.
- Lovely concert

Audience

Beautiful music. Some of the songs and singing brought tears to my eyes! But it was too long. You'd get more people with shorter concerts. Hour and half is about right. Leave them wanting more. Other than that, it was a lovely afternoon of choral music.

Love all of your concert. Wish you could print the words to the songs that are not in English. Thank you for all your hard work that you put into the concert. God bless each of you.

Would be nice to have no intermission and be done earlier

Fun concert!

Audience

The choir sounded great as did the orchestra. The music was beautiful. The concert was too long. 2 hours is a long time to sit in the wooden pews at that venue. Or any venue. As beautiful and wonderful as it was, I saw many people counting the songs to see how much longer it would last. If you could shave off a bit of time, it would add to the enjoyment of the experience.

Probably the best sounding I've heard this group. Very crisp and clear!

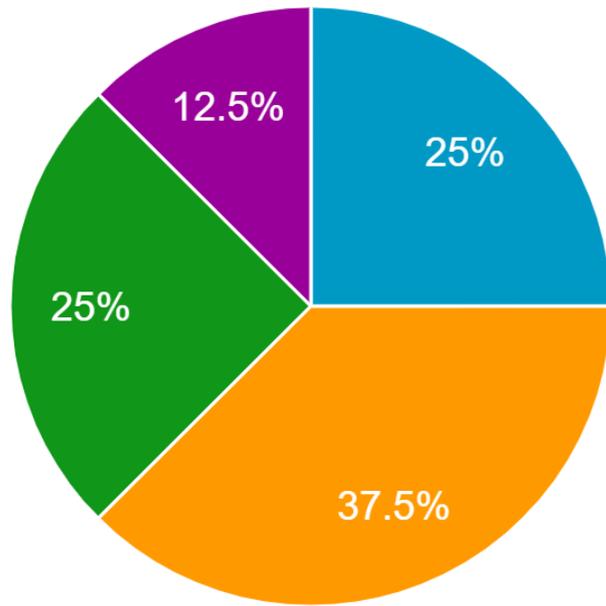

Especially enjoy the more familiar pieces. Shenandoah. Time to say goodbye. Danny boy. What a wonderful world. The spirituals. Good soloists.

From a choral director: very live acoustics required more pronounced enunciation; lyrics mostly unclear.

Information regarding recordings of events would nice.
